PLANT AND SOIL

Contents Volume 292 Nos. 1–2 March 2007

Original Papers

Physiological behaviour, oxidative damage and antioxidative protection of olive trees grown under different irrigation regimes
E.A. Bacelar, D.L. Santos, J.M. Moutinho-Pereira, J.I. Lopes, B.C. Gonçalves, T.C. Ferreira and C.M. Correia 1–12

Phenolic compounds in Norway spruce as affected by boron nutrition at the end of the growing season
A. Rummukainen, R. Julkunen-Tiitto, M. Räisänen and T. Lehto 13–23

Effects of elevated CO_2 and O_3 on leaf litter phenolics and subsequent performance of litter-feeding soil macrofauna
A. Kasurinen, P.A. Peltonen, R. Julkunen-Tiitto, E. Vapaavuori, V. Nuutinen, T. Holopainen and J.K. Holopainen 25–43

Response of nitrogen dynamics in semi-natural and agricultural grassland soils to experimental variation in tide and salinity
A.M. Antheunisse, R. Loeb, M. Miletto, L.P.M. Lamers, H.J. Laanbroek and J.T.A. Verhoeven 45–61

Copper concentration in plants and in the rhizosphere as influenced by the iron status of tomato (*Lycopersicon esculentum* L.)
J.Y. Cornu, S. Staunton and P. Hinsinger 63–77

Biomass, morphology and nutrient contents of fine roots in four Norway spruce stands
W. Borken, G. Kossmann and E. Matzner 79–93

Modelling the combined effect of chemical interference and resource competition on the individual growth of two herbaceous populations
L.S. Emeterio, C. Damgaard and R.M. Canals 95–103

Effect of exogenous amino acids on Cu uptake and translocation in maize seedlings
Z. Zhou, J. Zhou, R. Li, H. Wang and J. Wang 105–117

Niche-based assessment of contributions of legumes to the nitrogen economy of Western Kenya smallholder farms
J.O. Ojiem, B. Vanlauwe, N. de Ridder and K.E. Giller 119–135

Soil-plant potassium transfer: impact of plant activity on clay minerals as seen from X-ray diffraction
P. Barré, B. Velde, N. Catel and L. Abbadie 137–146

Impacts of tree species diversity on litter decomposition in northern temperate forests of Wisconsin, USA: a multi-site experiment along a latitudinal gradient
M.D. Madritch and B.J. Cardinale 147–159

In situ sampling of small volumes of soil solution using modified micro-suction cups
J. Shen and E. Hoffland 161–169

Dependence of the Q_{10} values on the depth of the soil temperature measuring point
M. Pavelka, M. Acosta, M.V. Marek, W. Kutsch and D. Janous **171–179**

Arbuscular mycorrhizal fungi from three genera induce two-phase plant growth responses on a high P-fixing soil
P.F. Schweiger, A.D. Robson, N.J. Barrow and L.K. Abbott **181–192**

Cover crops influence soil properties and tree performance in an organic apple (*Malus domestica* Borkh) orchard in northern Patagonia
E.E. Sánchez, A. Giayetto, L. Cichón, D. Fernández, M.C. Aruani and M. Curetti **193–203**

Evaluation of physiological traits for improving drought tolerance in faba bean (*Vicia faba* L.)
H.R. Khan, W. Link, T.J. Hocking and F.L. Stoddard **205–217**

Root biomass and nutrient dynamics in a scrub-oak ecosystem under the influence of elevated atmospheric CO_2
A.L.P. Brown, F.P. Day, B.A. Hungate, B.G. Drake and C.R. Hinkle **219–232**

Soil microbial community composition and structure: residual effects of contrasting N fertilization of swine lagoon effluent versus ammonium nitrate
K. Iyyemperumal and W. Shi **233–242**

Effects of understory removal, N fertilization, and litter layer removal on soil N cycling in a 13-year-old white spruce plantation infested with Canada bluejoint grass
M. Matsushima and S.X. Chang **243–258**

Overexpression of a high-affinity phosphate transporter gene from tobacco (*NtPT1*) enhances phosphate uptake and accumulation in transgenic rice plants
M.R. Park, S.-H. Baek, B.G. de los Reyes and S.J. Yun **259–269**

Cold acclimation was partially impaired in boron deficient Norway spruce seedlings
M. Räisänen, T. Repo and T. Lehto **271–282**

Toxic effects of Ni^{2+} on growth of cowpea (*Vigna unguiculata*)
P.M. Kopittke, C.J. Asher and N.W. Menzies **283–289**

Accumulation, subcellular localization and ecophysiological responses to copper stress in two *Daucus carota* L. populations
W. Ke, Z. Xiong, M. Xie and Q. Luo **291–304**

Cytokinin producing bacteria enhance plant growth in drying soil
T.N. Arkhipova, E. Prinsen, S.U. Veselov, E.V. Martinenko, A.I. Melentiev and G.R. Kudoyarova **305–315**
